# Uluslararası Bilimsel Yayınlarımız

Üniversitelerin en önemli görevi kuşkusuz uluslararası bilimsel araştırma ve yayın yapmaktır. Bilimsel çalışmaların evrensel geçerlilik ve güvenilirlik ölçütlerine kavuşması, çağımızın büyük kazançlarından biridir. Çünkü 19. yüzyıldan bu yana dünyada bilimsel bir standart oluşturma çalışmaları giderek daha kesin, daha dakik ölçütler kazanmıştır.

Bilim ölçütlerinin yanı sıra bilimin merkezleri de değişmiştir. Artık merkez Batı değildir; ama Doğu da değildir. Bilimin merkezi, bilim adamının özgürce çalışma ortamı bulduğu her yerdedir. Küresel çağın belki de tek güzel yüzü ve en büyük kazancı budur; bilim her yerdedir. Artık bir kutba öykünmenin ya da imrenmenin çağı kapanmıştır. Yeter ki bilgiye değer veren bir toplum, bilgiyi varlık koşulu sayan topluluk ve kurumlar ile bilgiyi üretmek için asgari düzeyde de olsa bir olanak var olsun. Bu durumda bilim insanının İbn-i Sina'nın acıyla söylediği gibi, değerbilmezlik yüzünden yurdunu terk etmesine gerek kalmayacaktır.

Ne mutlu ki ülkemiz artık bir bilim ülkesidir. Her zaman söylemekten büyük bir mutluluk ve gurur duyduğum gibi, Türkiye odun ateşinin ışığından başlayıp lazer ışığına ulaşmıştır. Bu konumdaki bir ülkede bilim insanının geçerli mazereti kalmamış olmalıdır. Artık bir mazeret arkasına sığınma çağı da kapanmıştır. Her fırsatta özellikle vurgulamak gereği duyduğum gibi, herkesin mazereti olabilir ama üniversitelerin hiçbir koşulda mazereti olamaz. Ülkemizin ve evrenin karanlığını aydınlatıp insanlığın yolunu açacak olanın üniversiteler olduğunu unutmamalıyız.

Başkent Üniversitesi'nin bilim politikası budur. Peki "Bilimsel pratiği nedir?" diye soranlara yanıt verebilmek için elinizdeki kitabı hazırladık. Uluslararası indekslerce taranan yayınların toplamı ve öğretim üyesi başına düşen sayısı, bir üniversitenin bilimsel pratiğinin ölçütüyse, bu ölçütün Başkent Üniversitesi'ndeki

boyutları bu kitapta sunulmaktadır. Bu kitapta Başkent Üniversitesi adresli, 2009 yılında Citation indeksleri (Science Citation Index, Social Sciences Citation Index ve Arts & Humanities Citation Index) kapsamlı yayınların künyeleri, yayımlandıkları dergilerin TÜBİTAK'a göre grupları ve türleri akademik birimler bazında verilmektedir.

2010 Ocak ayı başı itibari ile üniversitemiz kaynaklı tam makale (466), meeting abstract (58), proceeding paper (41), letter (20), review (14), editorial material (24), book review (11), olmak üzere toplam 634 yayın yapılmıştır. Bunların indekslere dağılımı, Science Citation Index Expanded'da (SCI-exp) 584, Social Science Citation Index'te (SSCI) 84 ve Arts and Humanities Citation Index (AHCI)'te 8 yayın olmak üzere toplam 676 yayın bulunmaktadır. Bu yayınların dökümüne bakıldığında; SCI-exp'da 433 ve SSCI'te 56 ve AHCI'de 1 olmak üzere toplam 490 tam makale bulunduğu görülmüştür. Ancak 24 makalenin hem SCI, hem de SSCI tarafından taranmış olması dikkate alınarak gerçek makale sayısı 466 olarak kabul edilmiştir. Bu durumda, ÖSYM'den alınan 2008-2009 yılı öğretim elemanı sayısına göre, öğretim üyesi başına düşen tam makale sayısı 0,94 (466/498) olmaktadır.

Bilimsel çalışma göstergelerini bir kitapta toplayıp ilgiye sunmak, bundan sonra da düzenli sürdüreceğimiz bir çalışma olacaktır. İnaniyorum ki, üniversitemiz ve bilim insanlarımız, fazladan bir şeyi değil, yalnızca kendi görevlerini hakkıyla yaptıklarında, ülkemizin dinamizmi değişecek ve çağdaş uygarlık çizgisine ulaşmamız, dahası onu da aşmamız zor olmayacaktır.

Prof. Dr. Mehmet Haberal  
Rektör
